Faculty of Arts Appointments

Although it has only recently been appointed, the administrative arm of the Faculty of Arts has already served to remind us that one of the strengths of The University of Alberta is its ability to attract and retain well qualified people from far and wide. The appointees, who began working with the new Dean of Arts, Dr. Terry White on 1 July, are Gordon Moyles, originally from Newfoundland; Ernest Reinhold, a native of Germany, Saleem M.M. Qureshi from India; and Margaret Jendyk from England.

Dr. Moyles is Associate Dean, Humanities and Fine Arts; Dr. Reinhold is Associate Dean, Student Programs; Dr. Qureshi is Associate Dean, Social Sciences; and Professor Jendyk is Assistant Dean, Student Programs.

Dr. Moyles, born in Lewisporte, Newfoundland, and educated in that province and in England, is Professor of English Literature and teacher of Canadian Literature and Analytical Bibliography. He has been at the University since 1969 and his chief academic interests are in the text of *Paradise Lost*, 18th century editorial procedures, and 19th century Canadian descriptive literature. Formerly Associate Chairman of the Department of English, Dr. Moyles has been the recipient of several Canada Council awards and has published numerous articles and books, the most recent being *English-Canadian Literature to 1900* and *The Text of Paradise Lost: A Stemma for the Early Editions*. He is Chairman of the Univer-

sity Press Committee.

Dr. Reinhold, born in Tann, Germany, studied at the Universities of Alberta and Michigan, and was Chairman of the Division of Germanic Languages and General Linguistics, University of Alberta, from 1959 to 1964. The division became a department in 1965 and Dr. Reinhold served as Chairman until 1970. He was Director of the Summer School of Linguistics from 1958 to 1968. A Professor of Germanic Languages, Dr. Reinhold is a member of the American Linguistic Society, the Modern Language Association of America, the Canadian Association of University Teachers of German, the Canadian Linguistic Association, and the American Association of Teachers of German. He received the Alexander von Humboldt Medal in 1980.

Dr. Qureshi, born in Bareilly, U.P., India, was educated at Agra University and Lucknow University in India, and at the University of Pennsylvania. He came to The University of Alberta in 1963 and, since 1972, has been Professor of Political Science. In addition to his new post, he will teach a course on political development and another on the politics of the Middle East. Dr. Qureshi has published widely on the political scene in Pakistan and is a member of the Board of Trustees of the American Institute of Pakistan Studies, and an Institute Fellow, Institute of International Law and Policy. He is also an editorial consultant for *The Canadian Review of Studies on*

Nationalism.

Professor Jendyk, born in Hinckley, Leicester, England, was a student at St. Cecilia's School, Hinckley; Penrhos College, Colwyn Bay; the Royal Academy of Dramatic Art; and London University Goldsmith's College. She came to this Uni-

versity in 1967 as Assistant Professor of Drama and later initiated courses in improvisation, creative drama, improvisational production, and theatre for young audiences. Professor Jendyk is at work on a book entitled *The Creative Process of Drama*. □

Faculty of Nursing to Teach Post-R.N. Program in Red Deer

Red Deer has been selected as the first site for The University of Alberta's Faculty of Nursing's Post-R.N. off-campus program towards a BSc in Nursing degree. The announcement was made on 23 July following visitations by Faculty representatives to four centres: Fort McMurray, Grande Prairie, Red Deer, and St. Paul. The locations were chosen because of the identified interest of registered nurses from these areas in obtaining degrees and the potential opportunity to use the resources of post-secondary institutions already established in the communities. In each visit, J. Boman and P. Hayes initiated public meetings for interested nurses, discussions with nursing employers, and meetings with college representatives. Data were collected at each site, transcribed into a comprehensive report, and scrutinized by the Faculty of Nursing.

The Faculty noted that, while there were a number of nurses in the various locations who were eager to participate in the

program, Red Deer had the greatest number of prospective students, had support courses already established, and had an employment situation which allowed employers to support attendance at courses.

The off-campus program was made possible in the spring of 1980 when the Alberta Government provided a special grant to The University of Alberta, of which a portion (\$285,000) was allocated to the Faculty of Nursing to expand the Post-R.N. program. The decision was made that an additional thirty-six students would be incorporated into the program on the University campus and that thirty-six students would have the opportunity to begin studies on a part-time basis at an off-campus location.

In the case of the latter, students will take two courses per term in Red Deer for two years, attend Spring Session in Edmonton for six weeks in 1981 and come to Edmonton for study on a full-time basis in

either the 1982-83 academic year (September 1982 to April 1983), or within the next two years. All nursing courses must be completed within a five-year period from the students' commencement in the program.

The Faculty of Nursing is proceeding in a resolute manner, mindful that during the last decade there has been a sustained demand by registered nurses from diploma schools (colleges and hospitals) for increased access to baccalaureate education.

Professor Hayes' report also recommends that a record system be established in the Faculty which would facilitate accurate dissemination of information to students wishing to take courses towards a degree in off-campus locations, and enumeration of the numbers of potential students in a given area, for off-campus planning.

As well, the report recommends that a Faculty of Nursing representative visit regional sites at least once annually to maintain contact with the colleges, to provide individualized counselling for prospective off-campus students and to assist in decision-making about the trans-

ferability of off-campus credits.

Professor Hayes said the three alternate sites visited are either in the process of, or in the planning stage of rapid community change which influences the nursing population with respect to staff shortages and

transient employment. "Recognizing that such factors can influence future decision-making, it is tentatively recommended that Fort McMurray be placed next in the order of priority for an off-campus program and that the nurses in Grande Prairie and

St. Paul be encouraged to take courses through the college or Athabasca University or through negotiated University of Alberta off-campus credits. Such demonstration of interest would facilitate the choice of the third and fourth sites to be selected." □

Appointments at the Vice-Presidential Level Forthcoming

Office of the President

As soon as possible, Associate Vice-Presidents will be appointed to assist Vice-Presidents Baldwin and Phillips. Staff interested in either of these positions should communicate directly with Vice-President George Baldwin or Vice-President Ron Phillips during the next two weeks. These new appointments relate to a vacancy at the Associate Vice-President level resulting from the resignation of Mel Poole, and to reorganization in central administration.

President Horowitz recently announced that all the Vice-Presidents will be involved in planning and that activity will be coordinated by the President. Vice-President Baldwin will continue to be the President's senior associate on academic matters and, hopefully in the fall, a Vice-President (Research) will be appointed to share responsibility for academic affairs with Vice-President Baldwin. Vice-President Leitch will be the President's senior associate on financial affairs and on relationships with bodies external to the University. Vice-President Phillips will be assuming responsibility for a number of service units and his title will be changed to Vice-President (Facilities and Services).

When the Vice-President (Research) assumes office the Librarian to the University, University Archivist, and the Directors of the University Press

and University Collections will report to him or her. Eventually, the Vice-President (Research) will be responsible for the Research Grants and Contracts Office and other matters related to staff research now associated with the Faculty of Graduate Studies and Research.

Two changes are already in effect. Margaret McCaughan is now assisting the President on a full-time basis as Executive Assistant to the President, and Ellen Solomon, formerly Assistant Secretary of General Faculties Council, has been appointed that Council's Secretary.

A number of administrative changes will be effective with the appointment of the two Associate Vice-Presidents: The heads of University Health Services, Technical Services, Radio and Television, Housing and Food Services, Bookstore, Printing, and the Office of the Dean of Students will be reporting to Vice-President Phillips. Administrative Services, Campus Development, Campus Security and Parking, Facilities Program Planning, Physical Plant and Utilities Planning and Construction will continue to report to him as well.

Community Relations, Alumni Relations and Fund Development will be reporting to Vice-President Leitch. The Office of the Comptroller, Budget Office, Internal Audit, Investment Office,

Personnel Services and Staff Relations, Administrative Systems and Purchasing will continue to report to Vice-President Leitch.

Dr. Willard Allen will be assuming the position of Associate Vice-President (Finance and Administration).

The heads of the Office of the Registrar, Special Sessions, Institutional Research and Planning, and Computing Services will continue to report to the Office of the Vice-President (Academic).

The senior administrative committee will be chaired by President Horowitz and will include, in addition, Vice-Presidents Baldwin, Leitch and Phillips, and the Vice-President (Research). President Horowitz will be assisted on general administrative matters by Margaret McCaughan (Executive Assistant to the President) and his secretary Mary Neden (Administrative Assistant), on Board of Governors matters by Brian Silzer (Secretary to the Board), and on General Faculties Council matters by Ellen Solomon (Secretary to GFC).

At the Associate level the Vice-Presidents will be assisted by Amy Zelmer and a new appointee (Academic), Brian McDonald (Academic Administration), Willard Allen (Finance and Administration), and a new appointee (Facilities and Services). □

Copyright 1980

"Have you ever thought about..."

Often referred to as a "city within a city" The University of Alberta always has a number of interesting and exciting things to report on. Throughout the year, without fail, Folio keeps you up-to-date on what the governing bodies are saying, what the researchers are doing, and what the professors are teaching, what changes are taking place on campus and so forth.

There are, as well, many ancillary things being done, and happening on campus without which our "city within a city" could not be complete. If there is anything you have seen, heard, or wondered about on campus write or call us and we will attempt to report on it in future issues.

Where Do All The Flowers Go?

"What is this life if, full of care,
We have no time to stand and
stare?"

We should all take a little time to look at the variety of plants now providing splashes of color around the University campus. Thanks to the efforts of the University grounds staff, these plants are telling us that summer is well and truly here.

While different species of plants are used, it seems only fitting that Edmonton's official

flower, the Marigold, should appear in the greatest numbers. About 4,000 of these are planted in company with 3,000 each of Petunias, Snapdragons, and Geraniums, 2,000 each of Begonias and Alyssum and 1,000 each of Flowering Kale and Lobelia. In all, some 21,000 plants beautify our grounds during the summer months.

The plants are raised at the Ellerslie Research Station and are used, not just on the main

campus but also at Kinsella Farm and Faculté Saint-Jean. At a cost of 11 cents each, the total cost of the plants is \$2,300.

In addition to the annual spring planting, 300 to 400 perennials and shrubs are replaced throughout the year. These replacements are needed for a variety of reasons such as construction work and loss

through frost.

While the nineteen members of the grounds maintenance staff work extremely hard to provide such pleasant surroundings, not everyone is appreciative of their efforts. It seems that each summer many plants are lost to vandalism—but that's another story! □

Charles Heath 1921-1980

It is with much regret that we have learned of the death of Dr. Charles Heath, Professor of Pharmacology, on Saturday 5 July 1980, after a lengthy illness.

Dr. Heath was born in Edmonton on 21 March 1921 and grew up in Edmonton and in the hamlet of South Cooking Lake. He entered the University of Alberta attaining a BSc in Chemistry in 1941. His career was interrupted by the war where he served with distinction in Europe, and later, on his return, he continued his research studies obtaining an MSc in Physiology from this University in 1951 and a PhD in Physiology from the University of Minnesota in 1955. He then rejoined the University of Alberta first in the Department of Physiology, then as Director of Laboratory Animal Services. Finally, in 1971 he joined the Department of Pharmacology.

Dr. Heath contributed to the University in many different ways. He was particularly concerned with public education and prepared a number of programs for national and local television on scientific subjects, which received many favorable comments. His concern for laboratory animal welfare made him a popular speaker at humane society meetings, surely an unusual thing for a pharmacologist. He will, perhaps, be best remembered at the University for his contributions to novel teaching methods and particularly his enthusiasm for computer-assisted instruction which has

been instrumental in making this approach an important component of Pharmacology teaching.

He is survived by his wife, Velma, seven children and two grandchildren and his brother Gordon. Charles Heath's cheerfulness, charm and infectious enthusiasm will be sorely missed by his many friends at the University and elsewhere. □

service information

Information must reach the Editor by 9 a.m. on the Thursday prior to publication. Written notification is necessary. Notices should be sent to 423 Athabasca Hall

Coming Events

Exhibitions

Rutherford Library Galleria
Continuing. "Canada's West: Photographs from the University of Alberta Archives." A selection of historical photographs relating to Western Canada.

Cameron Library.

Devonian Botanic Garden

Plants in bloom during the second week of August: Cimicifuga, Echinops, Gentiana, Hemerocallis, Lilium.

The Garden is open to the Public

Monday to Friday, 10 a.m. to 6 p.m.
Saturdays, Sundays and Holidays
1 p.m. to 6 p.m. During July and
August, guided tours will be given at
the following times:

Wednesday, Thursday, Friday:

11 a.m., 1 p.m., 3 p.m.

Saturday, Sunday: 1:30 p.m.,
3 p.m., 4:30 p.m.

The Garden can be reached by
travelling 10 kilometres west of
Edmonton on Highway 16, then 15
kilometres south on Highway 60.

Students' Union

26 July to 15 August, 12 noon to 7 p.m.

"The Works 1980"

Summertime exhibition and sale of
works in ceramic art, watercolor and
blown glass.

Films

Edmonton Film Society

"Screams for a Summer Night" Series

11 August. 7 p.m. "God Told Me

To" (1977). 8:45 p.m. "Massacre At
Central High" (1976).

Tory Lecture Theatre. Series passes
available at HUB, Woodward's.

Lectures and Seminars

Department of Biochemistry

13 August. 4 p.m. M. Hermodson of

Purdue University will speak on

"Separation of Large Polypeptides on
Reverse Phase High Pressure Liquid
Chromatography." 227 Medical
Sciences Building.

Forest Industry Lecture Series

14 August. 11 a.m. G. Namkoong,
North Carolina State University, will
discuss "Tree Breeding for Variable
Environments." 345 Chemical-Mineral
Engineering Building.

Summer Sports Camps

Athletic Injuries Clinic

Room W-1 59, Physical Education
Complex, West Wing, University of
Alberta. Date: 4 to 8 August 1980.

Specialized Skating for

the Advanced Hockey Player

Varsity Arena, Nautilus Training
Room, University of Alberta.

Date: 11 to 16 August 1980.

Gymnastics

Gymnastics Room and Dance Gym,

University of Alberta: Dates:

Beginner—28 July to 2 August 1980.

Intermediate—4 to 9 August 1980.

Coaching Certification Level I—

28 July to 1 August 1980. Coaching

Certification Level II—4 to 8

August 1980.

For further information and
application form contact Athletic
Services 432-5705.

Non-Credit Courses

The School of the French Alliance

4 to 15 August. Immersion course for

children and adults at all levels. For
further information call 435-1969.

Music

Convocation Hall

11 August. 7:30 p.m. A recital by
British organist Ian Bednall.

Notices

Statistical Consulting Laboratory

The President has provided funding for
a two-month period for a statistical
consulting laboratory to be operated by
the proposed Department of Statistics
and Applied Probability. This
Laboratory is designed to provide
University researchers with free
statistical consulting. A service like this
is provided at many universities; in
Canada, these include the University of
Toronto, the University of British
Columbia, Queen's and Dalhousie
Universities. If there is a favorable
response to the service on this campus,
we would hope to be able to provide
statistical consulting on a more
permanent basis.

The Statistical Consulting Laboratory
will be open from 20 June to the end
of August during the hours 10:30 a.m.
to 12 noon and from 1:30 p.m. to
3:30 p.m. daily. The laboratory is
housed in 605 Central Academic
Building, and the telephone number
is 432-3420. All members of the
University community desiring
statistical consultation on their
research problems are invited to use
this service.

Heritage Day

Since University buildings will be
closed on Monday, 4 August 1980
(Heritage Day) and classes have been
cancelled, the University Libraries will
also be closed.

The Cameron, Rutherford, and Edu-
cation Libraries will be open on
Saturday 2 August from 1 p.m. to
5 p.m.

Hours for the Education Library on
Sunday, 3 August will be from 1 p.m.
to 5 p.m. All other Libraries will be
closed on Sunday.

Campus Air Raid Siren

Several years ago the Department of
National Defence installed an Air Raid
Siren on the roof of the Dentistry
Pharmacy Building to alert citizens in
this area of a suspected air attack by
enemy forces.

During the past month, several mal-
functions in the system have been
experienced which has caused the
alarm to sound for short intervals.

Any soundings of the siren detected
by members of the Campus Com-
munity should be reported to the U of
A Campus Security at 432-5252 or
the Physical Plant Communications
Control Centre 432-4855.

Renaming of Canada

The sociology 472 class of Dr. B.Y.
Card recently sponsored a heuristic
conference on the renaming of
Canada. Copies of the conference
materials including a resource booklet
are available upon request from The
Office of Canadian Studies, 6-12
Humanities Centre, University of
Alberta, Edmonton, Alberta, T6G 2E5.

Surplus Equipment

The equipment appearing in this
column is available only to University
Departments with University
Administered Funds.

For further information about the
purchase of equipment or the disposal
of any of your department's surplus
equipment, consult Bonnie O'Dwyer or
Roy Bennett, telephone 432-3208.

1-Balance Analytical Mettler-H10,
2-Power supplies, unregulated D.C.
For further information contact
B. Kerrigan at 432-5786.

Positions Vacant

To obtain further information on the
following positions, please contact
Personnel Services and Staff Relations,
third floor, SUB, telephone 432-5201.
Please do not contact the department
directly. Positions available as of
25 July 1980.

Cataloguer

The University of Alberta Library
requires a librarian to catalogue book
materials for the Education and
Curriculum libraries. Knowledge of
French highly desirable; some German
desirable. Cataloguing experience also
desirable. Preference will be given to
a candidate with an education back-
ground.

Salary according to experience and
qualifications. Academic status, excel-
lent fringe benefits, removal grant.
Applicants should send curriculum
vitae, transcripts of academic record,
and the name of three references to
Bruce Peel, Chief Librarian, University
of Alberta, Edmonton, Alberta,
T6G 2J8. The University of Alberta is
an equal opportunity employer.

Part-time Banquet Waiters/ Waitresses

The Department of Housing and Food
Services requires people to serve at
evening and weekend banquets held at
Lister Hall. Previous experience would
be an asset. Starting salary is \$4.79 per
hour plus shift differential on evening
shifts.

Please apply to Room 44, Lister
Hall, 116 Street and 87 Avenue.
Contact Trudy or Wendy at 432-4281
for further information.
